REACH Product Information

For the products purchased from Evonik Performance Materials GmbH under the trade name
PLEXIGLAS® GS Sheets, Tubes, Rods

we certify that these products are in compliance with REACH. These products are articles and no chemicals are released under their intended uses. The REACH relevant monomers and substances in these products are registered or pre-registered and intended to be registered within the crucial REACH deadline 2018. These products are not classified as hazardous.

Substances of Very High Concern (SVHC):

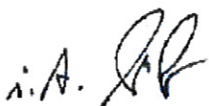

We certify that this product does not contain any Substance of Very High Concern (SVHC) listed on the most current candidate list according to Annex XIV published on the ECHA website in concentrations > 0.1% (w/w). (<http://echa.europa.eu/web/guest/candidate-list-table>). Regarding substances identified as Substance of Very High Concern in the future the Safety Data Sheet will be updated accordingly if the product contains > 0.1% (w/w) of a substance on the Candidate List. To fulfil REACH communication requirements, Evonik Performance Materials GmbH will provide the updated Safety Data Sheet to all recorded customer purchasing the concerned product. Evonik Performance Materials GmbH encourages downstream users to ensure compliance with the requirements for communication and notification of the REACH legislation.

We hope this information has been helpful. Should you nevertheless have further questions on products, please contact your Evonik Performance Materials GmbH representative directly, or use the central REACH address: reach-cmda@evonik.com.
